```java
 1 package week05;
 2
 3 public class AsteriskLogger implements Logger{
 4
 5     @Override
 6     public void log(String text) {
 7         System.out.println("***" + text + "***");
 8
 9     }
10
11     @Override
12     public void error(String textError) {
13         System.out.println("***************" + "\n" + "***Error:
   " + textError + "***" + "\n" + "***************");
14
15     }
16
17     // "\n" is new line
18
19 }
20
```
